* Not to be identified with Cretan stones having the same name. For Cretan stones and imported stones other than from Egypt (i.e. antico rosso, lapis lacedaemonius, obsidian [including 'liparite'] and possibly rock crystal), see WARREN 1969:124-143.

** Aston distinguishes several types of the same stone.

*** ASTON 1994:62 notes this term was erroneously employed for diorite gneiss, and provides features distinguishing the two. WARREN 1969:*passim* uses this term for anorthosite gneiss [ASTON 1994:62].
