

Acknowledgement

The GI_Forum 2014 programme committee contributed to and shared their expertise with the GI_Forum team in the areas of GIScience especially focusing on geovisualization, society and learning. Quality assurance of the GI_Forum programme and publication relies to a great extent on the willingness of these committee members to allocate their time for assessing submitted contributions and providing valuable comments for good quality publications.

On behalf of all the participants, and particularly the authors of the GI_Forum 2014, we express our very special *THANK YOU* to the following persons:
