

Foreword

Following the XXV. COSPAR Meeting at Graz, the Space Research Institute of the Austrian Academy of Sciences, under the auspices of the Academy's Radio Science Commission, organized a small international Workshop on Planetary Radio Emissions at the University of Graz.

The present volume contains edited versions of most of the papers (with discussions) presented at the workshop; its publication was made possible through the generous support of the Austrian Academy of Sciences.

Financial support for the workshop by the Provincial Government of Styria and the Austrian Solar and Space Agency (ASSA) is also gratefully acknowledged.

S. J. Bauer, w.M. ÖAW
Chairman, Radio Science Commission
